International Surgery

Official Journal of the International College of Surgeons

QUARTERLY REVIEW

INDEX - Volume 77, 1992

SUBJECTS

Abdominal trauma
Factors affecting postoperative mortality in abdominal trauma 198

Anal dilatation
Anal dilatation, lateral subcutaneous sphincterotomy and haemorrhoidectomy for the treatment of second and third degree haemorrhoids. A prospective randomized study 261

Anastomosis
Anastomotic healing in dogs under cortisone treatment. A pilot study comparing compression and stapler anastomosis 293

Anesthesia, local
Immediate return to unrestricted work after inguinal herniorrhaphy. Personal experiences with 27,267 cases, local anesthesia, and mesh 167

Ankle fractures
A new and easy classification system for ankle fracture 309

Anterior resection
Transitional mucosa at anastomosis. A cause of local tumour recurrence in patients rectal cancer after anterior resection 37

Antibiotics
Sensitivity to new generation of antibotics in biliary surgery 96

Antibody, monoclonal
Immunohistochemical staining patterns of benign breast biopsies by 323/A3 and Ca1 monoclonal antibodies related to epidemiological and radiological risk criteria ... 55

Ascariasis
Biliary ascariasis in fifteen patients 77

Atelectasis
Drainage after cholecystectomy. A prospective randomized clinical trial 274

Bassini-Kirschner operation
A randomized controlled trial for inguinal hernia repair to compare the Shouldice and the Bassini-Kirschner operation 235

Bile ducts
Biliary ascariasis in fifteen patients 77

Biliary surgery
Hepatic fascioliasis and biliary surgery 154
Sensitivity to new generation of antibotics in biliary surgery 96

Biopsy
Free-hand CT-guided needle for biopsy and drainage of intracerebral lesions. Ten years experience 211
Immunohistochemical staining patterns of benign breast biopsies by 323/A3 and Ca1 monoclonal antibodies related to epidemiological and radiological risk criteria ... 55

Blood transfusion
Correlation between plasma or blood transfusion and survival after curative surgery for colorectal cancer 264

Bone diseases, metabolic
Does total thyroidectomy induce metabolic bone disturbance 178

Brain abscess
Free-hand CT-guided needle for biopsy and drainage of intracerebral lesions. Ten years experience 211

Brain biopsy
Free-hand CT-guided needle for biopsy and drainage of intracerebral lesions. Ten years experience 211

Brain neoplasms
Free-hand CT-guided needle for biopsy and drainage of intracerebral lesions. Ten years experience 211

Breast cancer
A multivariate analysis of en bloc extended radical mastectomy versus conventional radical mastectomy in operable breast cancer 48

Breast disease
Immunohistochemical staining patterns of benign breast biopsies by 323/A3 and Ca1 monoclonal antibodies related to epidemiological and radiological risk criteria ... 55

Breast neoplasms
Management of cancer of the opposite breast following breast preservation 289

Breast preservation
Management of cancer of the opposite breast following breast preservation 289

Bronchogenic carcinoma
The value of selective mediastinoscopy in predicting resectability of patients with bronchogenic carcinoma 280

Calcitonin
Calcitonin gene-related peptide as a tumor marker for medullary thyroid carcinoma 181
Does total thyroidectomy induce metabolic bone disturbance 178

Cancer, opposite breast
Management of cancer of the opposite breast following breast preservation 289

Carcinoma, obstructive
Management and survival of patients affected with obstructive colorectal cancer 251

Carcinoma, pancreas
Role of surgery in ductal carcinoma of the pancreas 158

Cardiac tamponade
The pattern of penetrating cardiac trauma in Basrah province: personal experience with seventy-two cases in a hospital without cardiopulmonar by-pass facility 111

Cardiopulmonary by-pass
Autoregulated extra- and intra-corporeal pump system for perfusion 108
The pattern of penetrating cardiac trauma in Basrah province: personal experience with seventy-two cases in a hospital without cardiopulmonary by-pass facility 111

Carotid endarterectomy
Spontaneous intracerebral hemorrhage following carotid endarterectomy. Experience of 328 operations from 1983-1988 224

Cavitron Ultrasonic Surgical Aspirator
Cavitron ultrasonic surgical aspirator (CUSA) in liver resection 64

Cerebral hemorrhage
Free-hand CT-guided needle for biopsy and drainage of intracerebral lesions. Ten years experience 221

Child
Colostomy complications in infants and children 164
Inguinal hernia repair in infants less than six months of age 170

Cholecystectomy
Drainage after cholecystectomy. A prospective randomized clinical trial 274

Cholecystectomy, laparoscopic
Laparoscopic cholecystectomy in India 149

Cirrhosis, liver
Hepatic resection for 28 patients with small hepatocellular carcinoma 73

Clinical trials, randomized
Drainage after thyroidectomy: a randomized clinical trials 122

Colon
Primary colonic non-Hodgkin lymphomas: a retrospective clinico-pathologic study of 14 cases 195

Colon interposition
Transmediastinal esophagectomy and colon interposition without thoracotomy 141

Colorectal neoplasms
Correlation between plasma or blood transfusion and survival after curative surgery for colorectal cancer 264
Management and survival of patients affected with obstructive colorectal cancer 251
The influence of tumor lymphocytic infiltration on long-tem survival of surgically treated colorectal cancer patients 256

Colostomy
Colostomy complications in infants and children 164

Colpopexy, abdominal
Abdominal colpopexy for complete prolapse of the vagina 91

Computerized tomography
Free-hand CT-guided needle for biopsy and drainage of intracerebral lesion. Ten years experience 211

Cortisone
Anastomotic healing in dogs under cortisone treatment. A pilot study comparing compression and stapler anastomosis 293

Crohn's colitis
Surgery for Crohn's colitis 9

Crohn's disease
Fistulous complications of Crohn's disease 19
Surgery for Crohn's colitis 9
Surgical management and strategy in classical Crohn's disease 2
The role strictureplasty in Crohn's disease 15

CUSA
Cavitron ultrasonic surgical aspirator (CUSA) in liver resection 64

Defecation
Fecoflowmetry: a new parameter assessing rectal function 190

Dendritic cells
Infiltration of S-100 protein positive dendritic cells and peritoneal recurrence in advanced gastric cancer 238

Diverticulitis, perforated
Perforated diverticulitis: a surgical dilemma 44

Early gastric cancer
Esophageal carcinoma is frequently accompanied with early gastric carcinoma..... 69
The incidence of early gastric cancer continues to increase in our surgical unit 41

Emphysema
Single lung transplantation for emphysema. Lessons learned on the field 28

Endoscopic retrograde cholangio-pancreatography
Infectious complications of endoscopic retrograde cholangio-pancreatography managed in a surgical unit 270

Endothelial cells
The nature of inner cellular lining of the expanded polytetrafluoroethylene vascuar graft: immunohistochemical study 186

Epidemiology
Immunohistochemical staining patterns of benign breast biopsies by 323/A3 and Ca1 monoclonal antibodies related to epidemiological and radiological risk criteria ... 55

ERCP, complications
Infectious complications of endoscopic retrograde cholangio-pancreatography managed in a surgical unit 270

Esophageal neoplasms
Esophageal carcinoma is frequently accompanied with early gastric carcinoma 69

Esophageal varices
Over-tube is preferable to free-hand technique to avoid recurrence of varices after endoscopic injection sclerotherapy: prospective randomized trial 137

Extensive lymph node dissection
Extension of lymph node dissection and survival in primary gastric cancer 242

Extracorporeal circulation system
Autoregulated extra- and intra-corporeal pump system for perfusion 108

Fascicola hepatica
Hepatic fascioliasis and biliary surgery 154

Fecoflowmetry
Fecoflowmetry: a new parameter assessing rectal function 190

Fistulas, perianal
Fistulous complications of Crohn's disease 19

Fracture fixation
A new and easy classification system for ankle fracture 309

Gastrectomy
Gastrectomy for advanced gastric carcinoma with invasion to the serosa 144

Gastric cancer, early
Esophageal carcinoma is frequently accompanied with early gastric carcinoma 69
The incidence of early gastric cancer continues to increase in our surgical unit 41

Gastric carcinoma, advanced
Gastrectomy for advanced gastric carcinoma with invasion to the serosa 144

Gastric neoplasms
Extension of lymph node dissection and survival in primary gastric cancer 242
Infiltration of S-100 protein positive dendritic cells and peritoneal recurrence in advanced gastric cancer 238

Gastrointestinal surgery
Primary colonic non-Hodgkin lymphomas: a retrospective clinico-pathologic study of 14 cases 195

Gastroplasty
Simplified perioperative management in vertical banded gastroplasty 248

Head injuries
Causes and effects of systemic complications among severely head injured patients transferred to a neurosurgical unit 297

Heart, artificial
Autoregulated extra- and intra-corporeal pump system for perfusion 108

Heart injuries
The pattern of penetrating cardiac trauma in Basrah province: personal experience with seventy-two cases in a hospital without cardiopulmonary by pass facility 111

Haemoglobinopathies
Splenectomy for hematological disorders in the Eastern Province of Saudi Arabia .. 60

Hemophilia
Percutaneous catheterization of the subclavian vein in hemophiliac patients: report of 47 cases 118

Hemorrhage, internal
The operative treatment of unstable pelvic ring fractures 303

Hemorrhage, intracerebral
Spontaneous intracerebral hemorrage following carotid endarterectomy. Experience of 328 operations from 1983-1988 224

Hemorrhoidectomy
Open versus semi-open hemorrhoidectomy. A random trial 84

Haemorrhoids
Anal dilatation, lateral subcutaneous sphincterotomy and haemorrhoidectomy for the treatment of second and third degree haemorrhoids. A prospective randomized study 261

Hemorrhoids treatment
Open versus semi-open hemorrhoidectomy. A random trial 84

Hepatic fascioliasis
Hepatic fascioliasis and biliary surgery 154

Hepatitis B virus
Sixty cases of primary hepatocellular carcinoma in one year. A preliminary appraisal 277

Hepatocellular carcinoma
Hepatic resection for 28 patients with small hepatocellular carcinoma 72
Sixty cases of primary hepatocellular carcinoma in one year. A preliminary appraisal 277

Hernia, inguinal
Inguinal hernia repair in infants less than six months of age 170

Hernias
A randomized controlled trial for inguinal hernia repair to compare the Shouldice and the Bassini-Kirschner operation 235
Experience with the intraabdominal approach for complicated hernias of the inguinal region 232
The rationale use of mesh in hernias. A perspective 229

Herniorrhaphy, inguinal
Immediate return to unrestricted work after inguinal herniorrhaphy. Personal experiences with 27,267 cases, local anesthesia, and mesh 167

Hydronephrosis
Selective approach to repair of ureteropelvic junction obstruction: results of 126 pyeloplasties assessed on clinical and radiological bases 203

Hypertension
Spontaneous intracerebral hemorrhage following carotid endarterectomy. Experience of 328 operations from 1983-1988 224

Hypocalcemia, post-thyroidectomy
Post-thryroidectomy hypocalcemia: does arterial ligation play a significant role? ... 284

Ileorectal anastomosis
Surgery for Crohn's colitis 9

Immunohistochemical staining
The nature of inner cellular lining of the expanded polytetrafluoroethylene vascular graft: immunohistochemical study 186

Immunohistochemistry
Immunohistochemical staining patterns of benign breast biopsies by 323/A3 and Ca1 monoclonal antibodies related to epidemiological and radiological risk criteria ... 55

Immunology
The influence of tumor lymphocytic infiltration on long term survival of surgically treated colorectal cancer patients 256

Intensive care
Evaluation of an intensive care unit in a teaching hospital in Saudi Arabia 216

Intestinal perforation
Perforated diverticulitis: a surgical dilemma 44

Laparoscopic cholecystectomy
Laparoscopic cholecystectomy in India 149

Liver cirrhosis
Sixty cases of primary hepatocellular carcinoma in one year. A preliminary appraisal 277

Liver resection
Cavitron ultrasonic surgical aspirator (CUSA) in liver resection 64
Hepatic resection for 28 patients with small hepatocellular carcinoma 73

Lung disease, end stage
Single lung transplantation for emphysema. Lessons learned on the field 28

Lung neoplasms
The epidemiology of environmental tobacco smoke (ETS) and the weight of evidence argument 131
The value of selective mediastinoscopy in predicting resectability of patients with bronchogenic carcinoma 280

Lung transplantation
Single lung transplantation for emphysema. Lessons learned on the field 28

Lung tumors, metastatic
Metastatic lung tumors and extended indications for surgery 173

Lymph node dissection
Metastatic lung tumors and extended indications for surgery 173

Lymph node involvement
Extension of lymph node dissection and survival in primary gastric cancer 242

Lymphomas, non-Hodgkin
Primary colonic non-Hodgkin lymphomas: a retrospective clinico-pathologic study of 14 cases 195

Lymphoma, primary
Primary lymphoma of the spleen 125

Malabsorption
Surgical management and strategy in classical Crohn's disease 2

Mastectomy, extended radical
A multivariate analysis of en bloc extended radical mastectomy versus conventional radical mastectomy in operable breast cancer 48

Mediastinoscopy
The value of selective mediastinoscopy in predicting resectability of patients with bronchogenic carcinoma 280

Medullary thyroid cancer
Calcitonin gene-related peptide as a tumor marker for medullary thyroid carcinoma 181

Mesh
Immediate return to unrestricted work after inguinal herniorrhaphy. Personal experiences with 27,267 cases, local anesthesia, and mesh 167

Meta-analysis
The epidemiology of environmental tobacco smoke (ETS) and the weight of evidence argument 131

Meta-analysis, drainage
Drainage after thyroidectomy: a randomize clinical trials 122

Metastasis
Metastatic lung tumors and extended indications for surgery 173

Multivariate analysis
Multivariate analysis of en bloc extended radical mastectomy versus conventional radical mastectomy in operable brest cancer 48

Neoplasm staging
Pelvic lymphadenoscopy. A simple reliable method for the staging of pelvic cancers 208

Neoplasms, serosal
Gastrectomy for advanced gastric carcinoma with invasion to the serosa 144

Obesity
Simplified perioperative managemet in vertical banded gastroplasty 248

Obstructive colorectal cancer
Management and survival of patients affected with obstructive colorectal cancer 251

Pancreatic leakage
Pancreaticojejunostomy and pancreatic leakage after pancreaticoduodenectomy 80

Pancreatic neoplasm
Role of surgery in ductal carcinoma of the pancreas 158

Pancreaticoduodenectomy
Pancreaticojejunostomy and pancreatic leakage after pancreaticoduodenectomy 80

Pancreaticojejunostomy
Pancreaticojejunostomy and pancreatic leakage after pancreaticoduodenectomy 80

Parkinson disease
Parkinson syndrome. A significant risk factor in the patient with acute surgical disorder 313

Patients transportation
Causes and effects of systemic complications among severely head injured patients transferred to a neurosurgical unit 297

Pediatric surgery
Inguinal hernia repair in infants less than six months of age 170

Pelvic neoplasms
Pelvic lymphadenoscopy. A simple reliable method for the staging of pelvic cancers 208

Pelvic ring
The operative treatment of unstable pelvic ring fractures 303

Pelvioscopy
Pelvic lymphadenoscopy. A simple reliable method for the staging of pelvic cancers 208

Percutaneous vein catheterization
Percutaneous catheterization of the subclavian vein in hemophiliac patients: report of 47 cases 118

Perforation, intestinal
Perforated diverticulitis: a surgical dilemma 44

Perianal fistulas
Fistulous complications of Crohn's disease 19

Pericardiocentesis
The pattern of penetrating cardiac trauma in Basrah province: personal experience with seventy-two cases in a hospital without cardiopulmonary by pass facility 111

Perioperative care
Simplified perioperative management in vertical banded gastroplasty 248

Peritonitis
Spontaneous pneumoperitoneum without peritonitis 218

Plasma transfusion
Correlation between plasma or blood transfusion and survival after curative surgery for colorectal cancer 264

Pleural abrasion
Pleural abrasion in the treatment of recurrent or persistent spontaneous pneumothorax. Results of 94 consecutive cases 99

Pneumoperitoneum
Spontaneous pneumoperitoneum without peritonitis 218

Pneumothorax
Pleural abrasion in the treatment of recurrent or persistent spontaneous pneumothorax. Results of 94 consecutive cases 99

Polytetrafluoroethylene vascular graft
The nature of inner cellular lining of the expanded polytetrafluoroethylene vascular graft: immunohistochemical study 186

Postoperative mortality
Factors affecting postoperative mortality in abdominal trauma 198

Proctocolectomy
Surgery for Crohn's colitis 9

Prolapsed vagina
Abdominal colpopexy for complete prolapse of the vagina 91

Pulmonary sequestrations
Pulmonary sequestrations in older child and in adults 102

Pump oxygenators
Autoregulated extra- and intra-corporeal pump system for perfusion 108

Pyeloplasty
Selective approach to repair of ureteropelvic junction obstruction: results of 126 pyeloplasties assessed on clinical and radiological bases..... 203

Radiology
Immunohistochemical staining patterns of benign breast biopsies by 323/A3 and Ca1 monoclonal antibodies related to epidemniolocical and radiological risk criteria 55

Rectal function
Fecoflowmetry: a new parameter assessing rectal function 190

Rectal neoplasms
Transitional mucosa at anastomosis. A cause of local tumour recurrence in patients with rectal cancer after anterior resection 37

Recurrence
Course of the recurrent laryngeal nerve relative to the inferior thyroid artery and the suspensory ligament of Berry 287
Experience with the intraabdominal approach for complicated hernias of the inguinal region 232
Infiltration of S-100 protein positive dendritic cells and peritoneal recurrence in advanced gastric cancer 238
Over-tube is preferable to free-hand technique to avoid recurrence of varices after endoscopic injection sclerotherapy: prospective randomized trial 137
Surgery for Crohn's colitis 9
Transitional mucosa at anastomosis. A cause of local tumour recurrence in patients with rectal cancer after anterior resection 37

Risk factors
Risk factors in wound infection following urologic operations: a prospective study 128

Sclerotherapy, endoscopic injection
Over-tube is preferable to free-hand tecnique to avoid recurrence of varices after endoscopic injection sclerotherapy: prospective randomized trial 137

Shouldice operation
A randomized controlled trial for inguinal hernia repair to compare the Shouldice and the Bassini-Kirschner operation 235

Sphincterotomy
Anal dilatation, lateral subcutaneous sphincterotomy and haemorrhoidectomy for the treatment of second and third degree haemorrhoids. A prospective randomized study 261

Spleen
Primary lymphoma of the spleen 125
Splenectomy for hematological disorders in the Eastern Province of Saudi Arabia .. 60

Splenomegaly
Splenectomy for hematological disorders in the Eastern Province of Saudi Arabia .. 60

Strictureplasty
The role of strictureplasty in Crohn's disease 15

Subclavian vein
Percutaneous catheterization of the subclavian vein in hemophiliac patients: report of 47 cases 118

Surgical disorder, acute
Parkinson syndrome. A significant risk factor in the patient with acute surgical disorder 313

Surgical stapler
Anastomotic healing in dogs under cortisone tratment. A pilot study comparing compression and stapler anastomosis 293

Surgical strategy
Surgical management and strategy in classical Crohn's disease 2

Tendon transfer, rectus
Immediate return to unrestricted work after inguinal herniorrhaphy. Personal experiences with 27,267 cases, local anesthesia, and mesh 167

Thoracotomy
Transmediastinal esophagectomy and colon interposition without thoracotomy 141

Thoracotomy, emergency
The pattern of penetrating cardiac trauma in Basrah province: personal experience with seventy-two cases in a hospital without cardiopulmonary bypass facility 111

Thyroid artery, inferior
Course of the recurrent laryngeal nerve relative to the inferior thyroid artery and the suspensory ligament of Berry 287

Thyroid surgery
Post-thyroidectomy hypocalcemia: does arterial ligation play a significant role? ... 284

Thyroidectomy
Course of the recurrent laryngeal nerve relative to the inferior thyroid artery and the suspensory ligament of Berry 287
Does total thyroidectomy induce metabolic bone disturbance 178
Drainage after thyroidectomy: a randomize clinical trials 122

Tobacco smoke
The epidemiology of environmental tobacco smoke (ETS) and the weight of evidence argument 131

Transitional mucosa
Transitional mucosa at anastomosis. A casue of local tumour recurrence in patients with rectal cancer after anterior resection 37

Transmediastinal esophagectomy
Transmediastinal esophagectomy and colon interposition without thoracotomy 141

Trauma multiple
Causes and effects of systemic complications among severely head injured patients transferred to a neurosurgical unit 297
The operative treatment of unstable pelvic ring fractures 303

Tumor marker
Calcitonin gene-related peptide as a tumor marker for medullary thyroid carcinoma 181

Tumours immunology
The influence of tumor lymphocytic infiltration on long term survival of surgically treated colorectal cancer patients 256

Ureteral obstruction
Selective approach to repair of ureteroplevic junction obstruction: results of 126 pyeloplasties assessed on clinical and radiological bases 203

Urologic surgery
Risk factors in wound infection following urologic operations: a prospective study 128

Utilization review
Evaluation of an intensive care unit in a teaching hospital in Saudi Arabia 216

Vaginal vault fixation
Abdominal colpopexy for complete prolapse of the vagina 91

Vascular injuries
Vascular injuries experience during the Afghanistan war 114

Wound infection
Drainage after cholecystectomy. A prospective randomized clinical trial 274

Wound infection, postoperative
Risk factors in wound infection following urologic operations: a prospective study 128
